

G. BENNETT,

Member British Optical Association (by Exam.), Fellow of the
Worshipful Guild of Spectacle Makers, London.

Market Pharmacy and Sight Testing Rooms,

MARKET PLACE, STOCKPORT.

ENLIGHTENED PEOPLE

Now recognise that it is wrong policy to buy Spectacles as they would an Umbrella. The eye is a very delicate organ of the body, and when the sight is defective it needs skilfully testing before Spectacles are given. By our methods the exact amount of refractive error is disclosed; we measure it and correct it. Glasses are A BANE OR A BLESSING, just as they are rightly or wrongly adapted to the eyes and mounted on the face. Correct Lenses ARE A COMFORT to the eyes, and the knowledge that THEY ARE CORRECT is a comfort to the mind.

JOSIAH BRIGGS,
